

## Picture

### - Digital-Quality Picture Capability\*

Digital compression technology provides sharper, clearer images for a sensational entertainment experience.

## Sound

### - Digital Audio Performance Capability\*

Allows consumer to enjoy DIRECTV® programming with digital audio performance comparable to compact disc.

## Convenience

### - Accelerated 32-Bit Processor

A 32-Bit processor is at the heart of this new system. The accelerated performance allows immediate access to all the new interactive features.

### - On-Screen Program Guides

#### -NEW 7-Line Program Guide

Search the channel guide while viewing an active channel in the picture window. Provides channel and program title information for seven different channels covering a two-hour time window. Arrows help indicate programs starting before or ending after the current time shown on the grid.

#### -Information Guide

Lists five different channels of programming at a glance. Details on the current highlighted program are displayed in a banner at the top of the screen. Program information changes automatically as the consumer navigates through the guide and highlights different programs.

### - Interactive Channel Banner

The translucent, see-through Interactive Channel Banner gives direct access to the key features of the DIRECTV System.

#### - The Guardian™

With this feature, parents have the ability to lock out specific channels and set rating and spending limits. They will be able to set specific viewing times for both the weekdays and the weekends.

#### - AlphaSort™

The AlphaSort feature allows you to sort the current guide alphabetically, starting with any letter you choose. Go directly to any listed show with the push of one button.

#### - Scout™

The new Scout feature searches the entire program guide to find matches to eight key words or phrases that you enter. Great for keeping track of your favorite movies, sports teams, actors and actresses!

- **8-Event Scheduler**

Allows you the ability to program your receiver to turn on, tune to a specific channel, and turn off at a pre-set time.

- **Software Upgradeable Via Satellite**

Your digital satellite receiver is able to receive upgrades or modifications to some of its features and functions. Please consult the Upgrade Menu to find a schedule of upgrades or modifications planned by DIRECTV. The upgrade feature is enhanced by RSA™ Secure™.

The "RSA Secure" logo ensures only authorized upgrades are delivered to your RCA digital satellite receiver.

**Remote**

**Master Touch® Universal IR Remote\***

Ergonomic design and color-coded buttons provide complete satellite system operation, plus primary function control of virtually every brand of remote controllable TV, VCR, and cable box.

- **Approx. 8 lbs.**

#### Plus

- **Limited Warranty**

See RCA dealer for complete details

#### Footnotes

DIRECTV PLUS Receiver = With this receiver and the proper satellite dish antenna, you may be able to subscribe to local channels from DIRECTV in certain markets. Additional equipment may be required in some areas. Check with your retailer or visit [www.directv.com](http://www.directv.com) for information on availability of local channels from DIRECTV in your area.

Residents of Alaska: The RCA DIRECTV receiver requires a larger dish antenna (not included) to receive DIRECTV programming. Signal reliability and performance will be susceptible to degradation especially during adverse weather conditions. Check your local dealer or installer for information on larger antennas which may be compatible with the RCA DIRECTV receiver.

Digital-Quality Picture and Audio Performance Capability = Quality of picture and sound are dependent upon the audio system, cables, and/or television used by the consumer.

Master Touch® Universal IR Remote = Controls the RCA® DIRECTV™ System plus most brands of remote controllable TVs, VCRs and cable boxes. Feature compatibility varies by brand and model.
